# TRUMP DICK

## HODL MY DICK TO CUM!!

Trump Dick was born from a very specific idea: to defend freedom of expression which can manifest itself through satire and jokes in general. If there is something that all the people of the world have in common, it is irony, because joking means taking life more lightly. We think this is the basis of Meme Coins in general. The Meme Coins themselves are actually a perfect exercise in satire, if you think about it. There is nothing more entertaining than seeing a token with no specific utility come to capitalize like some of the largest companies in the world. This means making fun of Finance in a big way and demonstrating that ultimately it too is perhaps nothing more than a game. Trump Dick was born with the precise intention of opposing that boring and bigoted sense of Political Correctness that has spread in recent years at a political and media level. If originally the assumptions that gave rise to this respectability that spread like wildfire were and are legitimate and shareable values, today more and more often they simply hide the hypocrisy of politicians, and in general prominent figures, who in the end they demonstrate something completely different from what they want us to believe they are. So let's say enough to Political Correctness and yes to free expression! Better a vulgar truth than a lie.
